“SFID68 NEW

Wrap-around frame base 8, designed to provide wide visual coverage and stability during sports activities. The aluminum structure ensures lightness and resistance, while the faceted profile of the temples gives them an aerodynamic look. The flex hinge offers maximum comfort, as well as the rubber temple tips which guarantee grip and adherence. Adjustable metal nose pads allow for a personalized fit and optimal wearability. High-quality Zeiss lenses with water-repellent Ri-Pel™ treatment and special filters for different sports and environments.

“SFID69 NEW

Cylindrical single lens designed to ensure wide, continuous vision, with front holes to enhance ventilation and prevent fogging. The aerodynamic temple design, lightened by recesses and holes, ensures stability and freedom of movement, while the rubber temple tips provide a solid and secure grip. The rubber nose pads, equipped with a click-fit system, allow for a personalized fit and optimal comfort. High-quality Zeiss lenses with water-repellent Ri-Pel™ treatment and special filters for different sports and environments.
